

## Reusable Plastic Badge with Security

**How it works:** Place TIMEtoken Indicator over VOID area. Once TIMEtoken Indicator is expired remove it and reissue VOIDbadge with a new TIMEtoken Indicator.

### STEP 1

First choose a VOIDbadge design:

A VOIDbadge is the best of both worlds—a reusable plastic badge that can be made to expire. Ideal for outdoor use or anytime a plastic badge is preferred. VOIDbadges come pre-printed and serialization is included.

- Great for contractors; highly visible and durable
- Serialization included. Specify sequence when ordering: 001-100, 101-200, 201-300, 301-400, 401-500

	Visitor	Vendor	Temporary	Contractor
Yellow	T3000	T3006	T3002	T3004
White	T3001	T3007	T3003	T3005

Packaging: 100  
 Size: 2.125 x 3.375" (5.4 x 8.57cm), 30 mil  
 Expiring TIMEtoken indicator sold separately, see below

**CUSTOMIZE IT!**

See the page 29 for more info

### STEP 2

Finish by choosing a TIMEtoken Indicator

- A low-cost way to add security to any badge
- Available in One-Day expiration
- Print them yourself or order them pre-printed

Printable FRONTpart

	Blank
One-Day	02013

Pre-printed FRONTpart

	VISITOR	VENDOR	TEMPORARY	CONTRACTOR	VALID THIS DATE ONLY	Blank
One-Day	06119	06113	06116	06117	06118	06147

Don't forget to order your BACKpart:

BACKpart

Item# 06057

Packaging: 1,000 FRONTparts and BACKparts  
 Size: 1.9375 x .9375" (4.92 x 2.38cm)  
 Expiration: One-Day

How it works: Place FRONTpart over BACKpart and the expiring process begins
