Healthcare Identification & Security Solutions

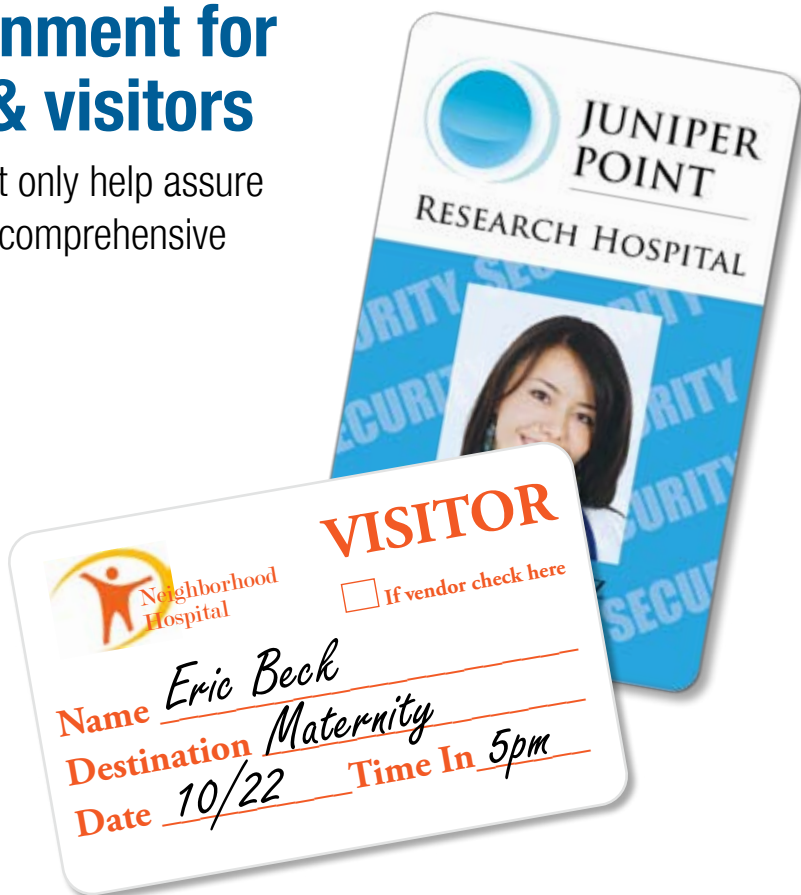

Create a safe environment for your patients, staff & visitors

Our secure identification programs not only help assure a safe environment, but also create a comprehensive security solution.

- > **ACCESS CONTROL**
- > **PHOTO IDENTIFICATION**
- > **ID ATTACHMENTS & ACCESSORIES**
- > **VISITOR SOLUTIONS**

Our card solutions also work with other systems such as:

- > **TIME & ATTENDANCE**
- > **SINGLE SIGN-ON**
- > **PHARMACY ACCESS**
- > **PARKING ACCESS**
- > **CAFETERIA PURCHASES**

Let's start with the **SOLUTIONS...**

> ID Card Systems

Our range of ID badge systems provide you with the flexibility and the security that you need in a photo ID card program.

- Automatically import and update employee data from HR, Access Control or other existing database
- Includes default healthcare screen design and database for quick start-up
- Customize your screens, card designs and database fields
- Multi-layered security protects your data

> ID Cards & Security Features

We offer ID cards that are customizable, durable and secure to meet your specific application and need.

Including:

- Inkjet printable cards
- Blank and pre-printed PVC cards
- Proximity Cards
- Smart Cards
- Name Badges
- Role Identification Cards (Badge Buddies)
- RACE/Code Cards

Enhance the security of your cards against fraudulent use with:

- Disappearing inks
- Holographic security layers
- Embedded security marks
- Oversized and custom shaped cards

> ID Card Printers & Supplies

Print PVC or all-plastic ID cards for your employees, volunteers and visitors. We carry a wide range of printers and supplies from leading manufacturers such as:

- Epson®
- Fargo®
- MagiCard
- Zebra®
- New “Smart IDCard Printer”
Speed, Durability and Reliability

> Attachments

We offer a wide variety of ID attachments for your employees to wear, display and use their identification and access cards or keys.

- Reinforced nylon center keeps your badge reel cord from breaking
- Custom lanyards with “Twist-Free” wide plastic hooks keep IDs facing forward for patients to see
- Gripper 30® securely holds a proximity card without the need for a slot hole
- Durable badge reels hold up to eight cards without pulling

Security Management doesn't end with your **EMPLOYEES...**

> **Visitor Software**

With PassagePoint™, healthcare and medical facilities can now enjoy unprecedented lobby security. No other product gives you such total control in verifying, screening, and badging visitors with such ease and speed.

- Automatically scan data from drivers license, ID, business card or passport to speed processing
- Associate visitors with bed numbers to protect confidentiality
- Track and restrict maximum number of visitors per patient
- Built-in visitor reports for healthcare compliance requirements
- Badge visitors after hours

University Hospital
VISITOR If vendor check here
Name Carl Lemay
Destination Floor D
Date 9/30 Time In 3pm

Security you can see... > **Visitor Badging**

Expiring and non-expiring visitor badges clearly differentiate visitors from patients and staff.

- Self-expiring tamperproof process changes color when the badge is no longer valid
- Manually issue or print from your existing visitor management system
- Color change prevents reuse and the need to collect expired badges

ACCESS CONTROL ushers in the next era of security for your building...

> Access Control

We realize the safety of your staff and patients is crucial. With the PremiSys™ access control solution we offer an easy-to-use and scalable system that controls access to your hospital facility including the security-sensitive areas such as labs, nurseries, pharmacies and patient records.

Key Features:

> **FILTER CARDHOLDER ACCESS GROUPS**
Restrict and control the access groups that operators can assign to cardholders

> **ACTIVE DIRECTORY TIE-IN**
Manage passwords with a link to LDAP

> **ADA EXTENDED DOOR TIME**
Grant specific cardholders additional time to use a door

> **CARDHOLDER REPORTING**
Easily personalize, customize and save reports

> **TRIGGERS & PROCEDURES**
In case of unauthorized use or other events, the system can be set to lock all doors, shut down a zone or cause any other action

> **ENHANCED ELEVATOR CONTROL**
Control and track a cardholder's floor and elevator access

> **ROBUST PHOTO ID SOFTWARE**
Create custom card and screen designs with expressionsID™ software
