

MIFARE CONTACTLESS SMART CARD TECHNOLOGY

- *Physical Access Control*
- *Time and Attendance*
- *Cashless Vending*
- *Logical Access Control*

LARGE GOVERNMENT SIZE (2⁵/₈" x 3⁷/₈")

- *Photo/text can be seen farther away*
- *Hold more printed data encourages wearing the card*
- *High-performance laminated Teslin™ for extreme durability*
- *Inexpensive personalization using ink-jet printers*
- *Single or double side printing in one pass*
- *PVC free*
- *Available with factory printing*
- *High-security anti-counterfeit measures*
- *All printing is under 10 mils of clear plastic*

Why settle for one-size-fits-all for your Identification security cards needs?

Imagine if all televisions were 21", all cars were sub-compacts, and all shoes were brown, size 9. Just like TVs, cars, and shoes, one size does not fit all ID card programs. Introducing IDentiSMART™ contactless MIFARE smart cards in CR100 oversize (2⁵/₈" x 3⁷/₈"). 30% more print area than a standard size card!

PERFECT FOR HEALTHCARE FACILITIES

- *Larger cards put patients more at ease*
- *Easier to see*
- *Sets friendlier tone*
- *Encourages employee to wear badge*

IDentiSMART™ Card Products

The IDentiSMART family of smart card products is expanding to include larger Government Size CR100 cards.

The new larger **Smart Insert** is used with our Government Size Dual-Core card and 5/2 wrapped pouch.

1. Simply insert the SI between the folded dual-core JetPak.
2. Put the tri-core combination into the 5/2 wrapped pouch.

HINT: Be sure to spread the wrapped pouch apart first as this is a thick insert, but it all fits perfectly.

Smart Inserts

ITEM#	DESCRIPTION	MSRP
SI-G131	Smart Insert, MIFARE 1K Government Size (CR-100) for use with HORIZONTAL SLOTTED Government Size Dual-Core JetPaks and 5/2 pouches. Not for use with Mag Stripe. Produces a contactless MIFARE smart card in Government Size 2 ⁵ / ₈ x 3 ⁷ / ₈ "	\$3.69 EA
