expressions ID

The professional ID badge system developed by a security ID company

 **IDenticard**[®]
SYSTEMS

The ID badge system with *security in mind*

expressionsID from **IDenticard** is the personal ID badge system designed for *security-minded professionals*. This full-featured, innovative digital imaging software not only makes it easy to produce a limitless range of high-quality ID badges ... it also enhances the level of any security management program.

Because it was developed by a leading security ID company, **expressionsID** incorporates *innovative security features* that protect against unauthorized access. Quite simply, we believe a secure ID management program begins with a secure ID badge system.

A *major advance*
in identification badging

expressionsID™ provides the *POWER* and *versatility*

to create a professional *ID badge solution*

with a look that's *distinctively* yours.

Designed by the **IDenticard®** team of industry experts,

this *Innovative digital imaging software*

combines *database management*

with the *latest in card design technology*.
